01

Identifying the Problem

Problem Summary

Identifying the Problem

- It can be difficult to find recipes that accommodate dietary restrictions, such as allergies, while also using ingredients already available at home.
- Many recipe websites are cluttered with lengthy blogs and irrelevant content, making it frustrating to find actual recipes. The lack of robust filtering options further complicates meal planning.

02

Motivation

Identifying Gaps

Motivation

- Baking should be an enjoyable and stress-free experience, but many recipe websites overwhelm users with unnecessary blog content and lack effective filtering options.
- Our goal is to simplify baking by offering clear, hassle-free recipes, smart ingredient substitutions, and essential tool recommendations—so users can focus on baking, not searching.

03

Our Solution

How We're Solving This Problem

Our Solution

- To address this problem, we're building a website that simplifies the baking process while being dietary restriction-friendly. It offers clear, easy-to-follow recipes with ingredient substitutions to accommodate allergies and dietary preferences.
- The website also recommends essential kitchen tools and suggests baked goods based on the ingredients users already have at home, making cooking more accessible and enjoyable for everyone.

Project Plan and Contributions

■ Backend

MySQL will be used for database management to handle data storage and retrieval.

■ Frontend

We'll use React.js to build the user interface and ensure a dynamic, responsive experience.

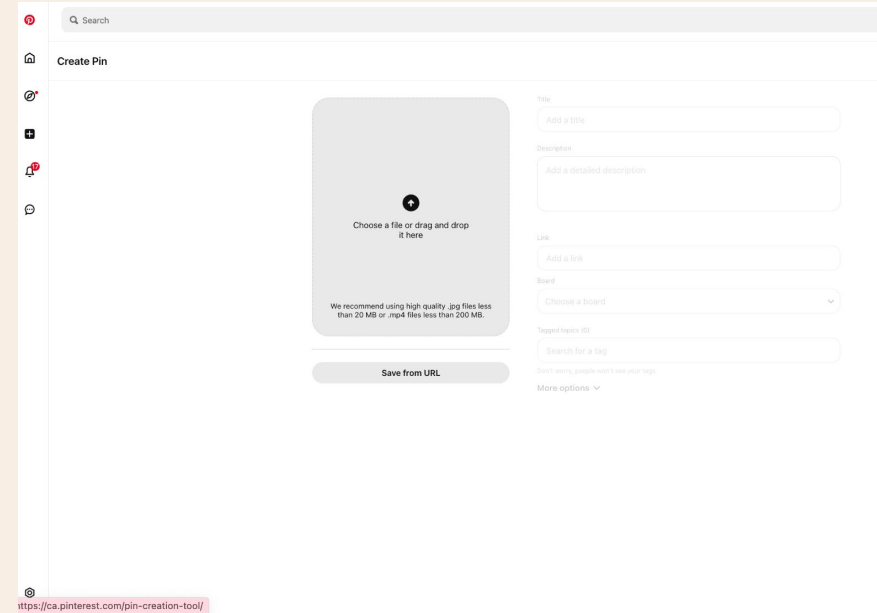

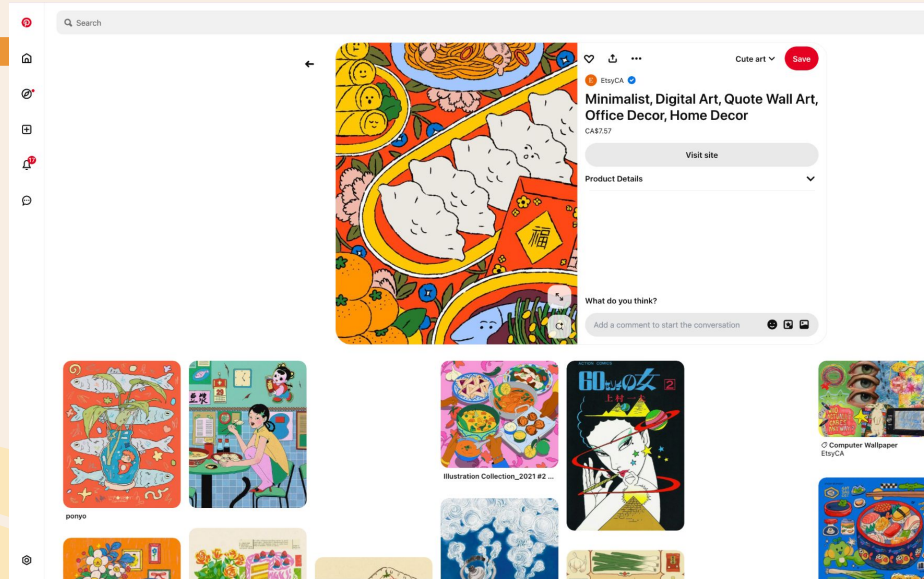

Work Distribution ■

The team will split tasks evenly, with each member contributing to both the front-end and back-end. One person will focus on both front-end and back-end for each page.

Example of Recipe Format

Prep time: 45min

Difficulty: Easy

Appliances
Needed

Ingredients

- Ripe bananas
- Eggs
- All purpose flour
- Sugar
- Soy milk
- Butter
- Baking powder

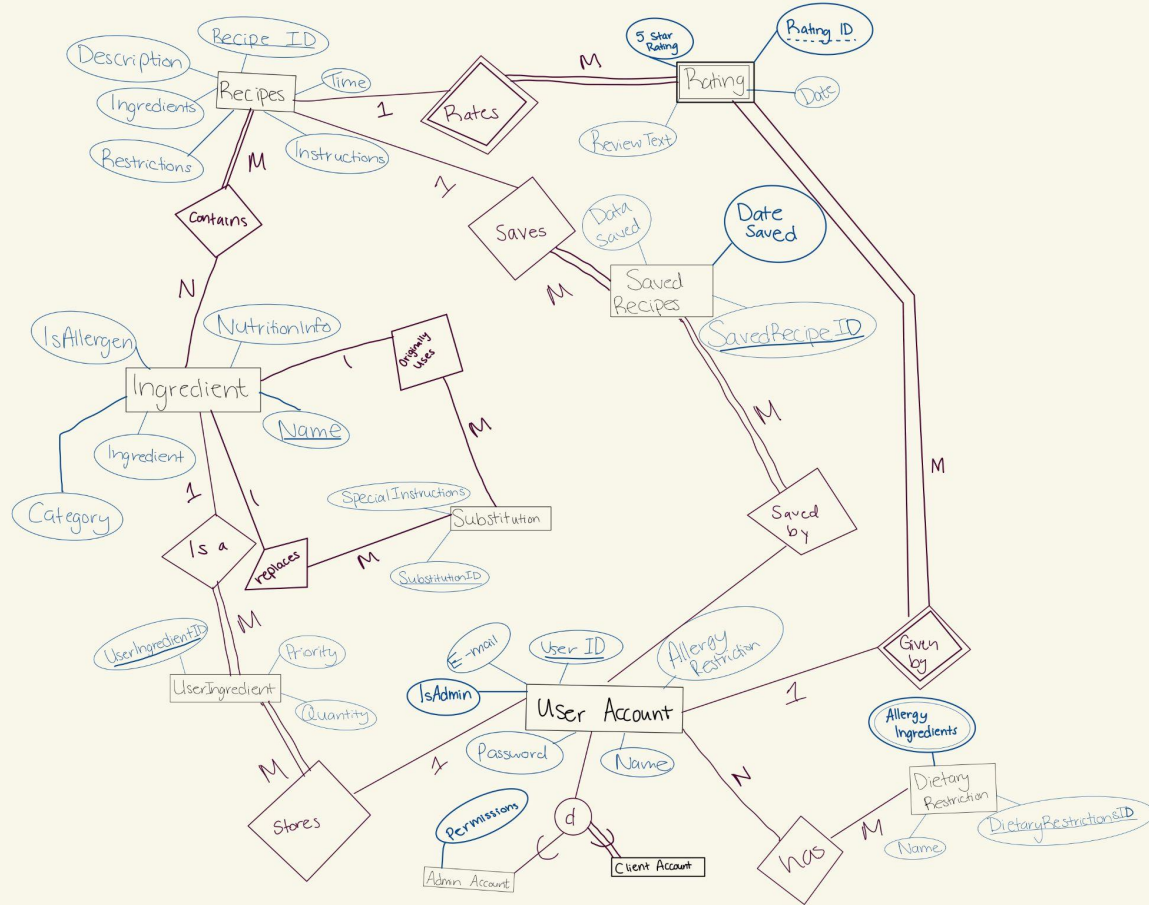

Step by step

1. Grab 3 ripe bananas.
2. Peel and mash the bananas in a bowl.
3. Stir in 1/2 cup of sugar.
4. Add 1/4 cup of melted butter.
5. Mix in 1 teaspoon of vanilla extract.
6. Fold in 1 cup of flour and 1/2 teaspoon of baking soda.
7. Bake at 200°C for 25 minutes or until golden.
